

ISE 307: Engineering Economic Analysis

In-Class Activity 25: Final Exam Practice

Term 253 (Summer)

Instructor: Mansur M. Arief

Industrial and Systems Engineering, KFUPM

Office: 22-219 — Email: mansur.arief@kfupm.edu.sa

In-Class Activity 25

Last Class for Term 253

Announcements

1. Final exam is Wednesday, August 5th, 12:30pm-2:30pm, in 57-303 (Males) and 57-304 (Females)
2. Coverage is Lecture 21-24, Quiz 3, practice problems (Chapter 9 and 11 from the book)
3. Bring your ID card, pens, and calculator
4. Write your name, student ID, pledge + signature on first page

Recap

1. What's one concept from the class you found most challenging?
Unexpected? Helpful?
2. Where do you think you can apply what you learned in the class?
3. What did you enjoy most about the class?
4. What would you like to see more of in the next class like this?

What's Next?

1. All materials from the class will be made public at **ise307.kfupm.io**
2. If you get A or A+ in the class, I might reach out to ask you to **review a textbook** we prepare for the next year of the class. An email will be sent to register your interest.
3. I have 2 research projects available for **RES200** or **RES201** (2-credit research course): AI safety projects (how to make sure AI is safe and reliable) and critical mineral supply chain evaluation
4. If any of you are interested in **becoming faculty/professor** in the future, please reach out to me — happy to discuss how to connect with top universities in the US for PhD programs.
